SECURITY SYSTEMS

PROTECTION AND PEACE OF MIND

There's a Honeywell security system for every lifestyle, budget and need. And they do more than keep you and your family safe and secure...they give you peace of mind and can even keep you connected to your home wherever you are. Our products are easy enough for every member of the family to operate, providing a level of simplicity and convenience you'll really appreciate.

TUXEDO TOUCH™ BY HONEYWELL

Control your security system, heating and cooling, door locks, shades and lighting from the crystal clear, 7" touchscreen. Tuxedo Touch does it all—truly enhancing your lifestyle and letting you make the most of your home!

LYNX TOUCH BY HONEYWELL

Honeywell's lifestyle-enhancing LYNX Touch is a dynamic, all-in-one system that lets you control your security system, lights, locks and thermostats, view video and more—all from one brilliant, full-color touchscreen or on mobile devices around your home. Choose from versions with 7" or 4.7" touchscreens.

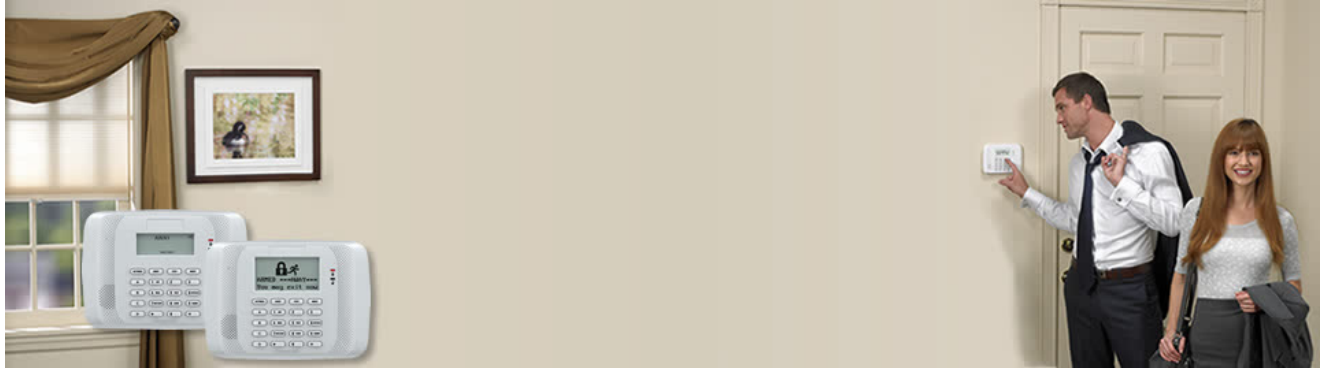

Hearing is Believing

Honeywell's security systems can actually talk to you, announcing system status in clear, spoken English.

WIRELESS REMOTES

Our wireless remotes offer the features of traditional keypads with convenient fingertip control. The press of a single button lets you operate your security system, lights, garage doors and more.

CUSTOM ALPHA AND FIXED-LANGUAGE KEYPADS
SIMPLICITY MEETS STYLE

Honeywell's stylish Custom Alpha and Fixed-Language Security Keypads let you control your security system with push-button ease, match every décor and are available in a variety of options to suit your lifestyle, needs and budget. Security has never been so simple—or so stylish!

24 HOUR MONITORING
YOU SLEEP. WE DON'T.

You and your family can enjoy peace of mind 24 hours a day, seven days a week by having your security system monitored by a central station. These highly trained home security professionals are always standing by, ready to send help to your home in the event of a burglary, fire, carbon monoxide event or other emergency.

INDOOR/OUTDOOR SENSORS
THE WALLS HAVE EARS...AND EYES

Honeywell's state-of-the-art sensors detect movement indoors and outdoors, listen for the sound of breaking glass to guard against intruders, protect valuables and more. They enhance the effectiveness of your security system and provide you with the complete, whole-house protection you need. You can also opt to receive alerts on your smartphone if motion is sensed in a protected area inside or outside—giving you the information you need to act quickly.

ENVIRONMENTAL SENSORS

HELP PREVENT DISASTER BEFORE IT STARTS

Ideal for kitchens and bathrooms, laundry rooms and basements, these detectors can notify you when detecting floods, leaks and extreme temperatures—helping to minimize the risk of dangerous conditions and damages to your home and valuables.

THEFT PROTECTION

MAKE THE SMART MOVE

Wireless theft protection sensors can be affixed to any valuable in your home, and alert you when an attempt is made to move or disturb the object. Great for flat screen TVs, artwork, computers, antiques and more.

DIGITAL VIDEO SECURITY
FOCUSING ON WHAT MATTERS

Want to see when your kids get home from school, keep an eye on your pets or make sure an important delivery arrives?

With Honeywell's digital video security, you can view live, streaming video on up to six cameras at a time or receive clips and images of important events when they occur.

EMERGENCY HELP ***DON'T PANIC!***

Our panic pendants provide you with peace of mind by summoning emergency help with the press of a button. One or two-button keys let you, an elderly relative or anyone who may require emergency assistance send signals to the central station to summon the police or medical response personnel when an alarm is triggered. Compact and water-resistant, they can be worn as a wristband, pendant, belt or keychain style.

HOME SECURITY LIGHTING ***TAKE YOUR HOME OUT OF THE DARK AGES***

Instantly turn on indoor and outdoor lights from your office computer or smartphone to arrive to a well-lit home, program lights to strobe on and off during an alarm to enhance security and create on and off schedules to simulate a lived-in look when you're away.

REMOTE LOCKING

THE KEY TO PEACE OF MIND

Lock your doors from downtown or down the street—anywhere you have an Internet connection!

You can lock and unlock doors automatically when arming or disarming your system, program them to lock at the same time every night or unlock the same time every morning for a babysitter.

THERMOSTATS

COMFORT AND CONVENIENCE

Honeywell's Z-Wave® enabled thermostats can automatically adjust every time you arm or disarm your security system. You can design customized scenes and schedules for comfort and energy savings, or control your thermostats on-the-go via your smartphone. Precise temperature control provides better comfort and fewer temperature swings. You can also create lockouts to keep temperature limited to a minimum or maximum setting—ideal in homes where children may attempt to adjust the thermostat.

LIGHTING

ANOTHER BRIGHT IDEA

Turn select indoor and outdoor lights on or off automatically every time you arm or disarm your security system. Tell your system to turn one set of lights on 30 minutes before you get home from work and turn another off an hour after you've gone to bed. You can program scenes and schedules for ambience and security, and control your lights from any remote location.

LOCKS

UNLOCK YOUR HOME'S POTENTIAL

Did your kids forget their keys again? Have a neighbor stopping by to drop off a package? Unlock the door from the comfort of your office—right from your smartphone or PC. You can also have the doors lock and unlock automatically whenever you arm or disarm your security system, set scenes and schedules for added safety and convenience. The possibilities are endless!

SCENES AND SCHEDULES

SET THE SCENE

Creating scenes and schedules can enhance your lifestyle and help you save money and energy without any change in your daily routine. A “Goodnight” scene could entail having the doors lock and the lights shut off when you arm your security system at night. A schedule might be created to have the porch and hallway lights on and the

thermostat set to a specific temperature an hour before you leave the office so you arrive to a comfortable, well-lit home.

CAMERAS

PICTURE THE POSSIBILITIES

You can view cameras around your home on touchscreens, televisions, tablets, smartphones or PCs. Keep an eye on your kids and pets, screen visitors at your entranceway and view activity occurring around the interior or exterior of your home whenever and wherever you want.

SHADES

YOUR WINDOW TO CONVENIENCE

Operate the shades in your home for ambiance, privacy and security by raising and lowering them at specified times. Automated shades make it easier to access skylights and other hard-to-reach windows above sinks, counters and bathtubs or in high foyers. They're also an ideal way to reduce glare and help protect furniture, floors, carpeting and artwork from the damaging effects of direct sunlight.

CEILING FANS

COOL AND IN CONTROL

What could be cooler than Z-Wave® enabled control of household ceiling fans? They can be automated to turn on or off when you arm and disarm your security system, programmed for specific times, work in conjunction with lighting and more!

HOME ENTERTAINMENT OPTIONS

LIGHTS, CAMERA, ACTION!

Entertainment in your home can be a high quality, cinematic experience when you integrate your Honeywell system with popular home systems from vendors like Control 4®, Lutron® RadioRA® 2, Savant® or Universal Remote Control. Transform your living room into a home theater with the touch of a button. Close the drapes, dim the lights, start the movie, control the climate and more. Sit back, relax and enjoy!
